"Borolyptol"

# Its Bacteriology

The crucial test of the efficacy of an antiseptic fluid is the bacteriological one. When we state that BOROLYPTOL is equal in germicidal potency to a 1-1000 solution of Corrosive Sublimate without the irritant or toxic properties of the latter drug, we base our claim upon the results of careful laboratory experimentation with the different varities of germ life. We have full, complete and conclusive reports from the bacteriologists of the N. Y. Post-Graduate Medical School, City Hospital at Boston, and the Garfield Memorial Hospital at Washington.

These will be sent upon request.

BOROLYPTOL is palatable, fragrant, and slightly astringent. It does not stain linen or clothes. It should be employed in Gynecology and Obstetrics, Rhino-Laryngology, Surgery and Dentistry. Also internally in the treatment of Typhoid Fever and in the gastro-intestinal disorders of children.

# BOVININE.

## *A Condensed Food.*
## *But Much More.....*

There are other Condensed Foods. **Bovinine is also living food.** In this it has no rival outside the arteries of the living body. It is drawn from the animal arteries **Alive, and Kept Alive**; and in the living body its only equivalent exists—the vital fluid itself; **THAT IS BOVININE.**

## A Wonderful Conserve of the Living Blood Corpuscles,

**or Tissue-Forming Cells of Life,** preserved without the use of heat or any other agent impairing their vitality; visible in any drop of Bovinine under the microscope in all their integrity, and known in thousands of cases to have entered **directly** into veins drained of blood by hemorrhage or innutrition with replenishment and revival from a dying condition. This has been done, not only by the avenue of the stomach, and by rectal enema, but even wasted and ulcer-eaten flesh has been regenerated by topical and hypodermic treatment, and the encroaching degeneration of the tissue not only arrested but driven back and driven **out** by the vitalizing power of this Living Blood-Supply, so that great ulcers, which had for years resisted all mendicaments, have been entirely healed by the local application of this eagerly absorbed nutrient matter.

All physicians owe it to themselves and to their patients to keep in view the unparalleled life-saving capabilities of **Bovinine,** the administration of which is practically nothing less than

## New York.

Miss A. L. Alston, for nearly eight years Superintendent of Mount Sinai Training School for Nurses, opened in September, 1894, a house for the reception of private patients. Being unable to supply the demand for rooms a large house has been fitted up with all modern improvements, elevator, etc., which will materially add to patients' comfort All classes of patients, male and female (including maternity cases) will be received, except patients suffering from contagious diseases or insanity.

Miss Alston's long and thorough experience will insure the best of nursing and general supervision for those who are in her charge. Great attention will be paid to the careful and appetizing preparation and serving of the food. As the number of rooms in the house is limited, meals will be served in the patient's room.

Long distance telephone in the house.

For circulars and information inquire at above address.

The house will be open the entire year.

# AN EXPLANATION.

REASON 1. Physicians will, we believe, endorse the statement that detail work, even at its best, entails loss of time and often taxes their patience. We have therefore concluded to dispense with the same,

REASON 2. Our preparations are in such good repute with the profession at large that we believe we can afford to entrust to cold type all we have to say in their behalf, and we rely upon physicians to at least write for samples and literature.

REASON 3. All of our preparations are standard, and have long since passed the experimental stage.

REASON 4. We advertise only through the medical press and to physicians exclusively.

## PHYSICIANS' AND SURGEONS'
## Analytical and Microscopical Laboratory.

DEAR DOCTORS :

In calling your attention to our Laboratory, we wish to emphasize the points which distinguish it as valuable for your patronage.

1st : That the average busy physician has no time to make his own Chemical or Microscopical Analysis.

2d : That physicians prefer their work done outside, if they can obtain absolute results. (This we know from experience.)

3d : That the fumes, acids, staining reagents, etc., all add annoyance to the physician.

4th : That our charges are reasonable and our work is commended to you with confidence that you will find it gives surprising advantages to your diagnosis and credit to yourself.

Owing to the increased business, I have been able to procure the services of R. D. Young, Phar M.; B. S., Graduate of Harvard, Formerly Assistant Chemist in Government Experiment Station at Geneva; also Assistant Chemist at Ann Arbor University, as assistant in this department.

For any expert Chemical or Microscopical Investigation we invite an interview.

# Dr. McMunn's Elixir of Opium.

## An Invaluable Discovery in the Preparation of Opium.

It contains all the valuable medicinal properties of Opium in natural combination to the exclusion of all its noxious, deleterious, useless principles upon which its bad effects depend. It possesses all the sedative, anodyne, and anti spasmodic powers of Opium: To produce sleep and composure; to relieve pain and irritation, nervous excitement and morbid irritability of body and mind; to allay convulsive and spasmodic actions, etc.; and being purified from all the noxious and deleterious elements, its operation is attended by no sickness of the stomach, no vomiting, no costiveness, no headache, nor any derangement of the constitution or general health. Hence its high superiority over Laudanum, Paregoric, Black Drop, Denarcotized Laudanum, and every other Opiate preparation.

## CAUTION.

Do you want the best, the acknowledged peer of all tables and chairs? It costs a trifle more but is still, all things considered, the cheapest of anything on the market. For general office practice it by far surpasses anything ever offered the profession in the way of either a table or chair. Before buying call and examine the New Allison.

Do you want to preserve your instruments and keep your medicine in a systematic and convenient form? If so give an eye to our up-to-date Cabinets. They fill all requirements, and are gems both in mechanical ingenuity and appearance.

# The Attention of Physicians

is respectfully solicited to this make of Sanitary Underwear. Being composed of the very finest Australian, natural wool, free from dye, of remarkably fine texture, it possesses qualities which render it particularly beneficial for delicate individuals, as it is of so smooth a surface, and so finely, closely knit, that it is warm without being heavy or bulky, and the smoothness of its surface prevents irritation of the cuticle, so objectionable in some makes of wool underwear.

## Mattelutz Steam-Shrunk Sanitary Underwear

is made not only in all wool fabrics, but the same fine tissue is also made with an admixture of cotton. The Mattelutz Sanitary Underwear is made in the neighborhood of Stuttgart, Wurtemberg, a locality famous for the production of fine knit wool fabrics. This underwear is **STEAM SHRUNK**, and consequently, with ordinary care in the laundry, will be found practically unshrinkable. The Medical Society can with confidence recommend these garments to their patients, and we respectfully present them to their kind consideration.

# HIGHLAND WATER

## From LEWISTON MAINE.

Is the best Tonic, Diuretic, Eliminative and Solvent of Uric Acid:

1. Because it is the softest and purest water known, containing no excess of mineral salts and no lime or organic impurities, being therefore non-irritating to the digestive organs and kidneys.
2. Because it contains Iron in combination with the alkalies, Sodium and Potassium in small quantities, as recommended by Profs. Flint, Thomson, Draper, and others.
3. Because it comes from a reigon free from malarial germs.
4. Because all its mineral salts, and five of them in the exact form given in its analysis, are found in the human blood, of which they form a most essential part.

**Analysis**—Each gallon contains

**Protonuclein** stimulates the nutritive functions, increases resistance to disease, promotes glandular secretion, restores tone to the system; cell-life throughout the organism is stimulated and health augmented.

Prepared in three forms, Protonuclein Tablets, and Powder for internal use, and Protonuclein Special Powder for local use.

**Trophonine.** A Palatable and Highly Nutritious Liquid Food.

It is a combination of animal and vegetable proteids with the enzymes from all of the digestive glands and the nucleo albumins of the lymphoid structures, thus furnishing at one time the material for metabolization, and the stimulant to functional activity. It is wholly absorbed, and leaves no residue to ferment, or furnish pabulum for the development of pathogenic micro-organisms.

**Peptenzyme.** A Perfect Digestant.

Peptenzyme is the only preparation which contains the active and latent ferment principles from all of the digestive glands, and in the same condition as they exist in nature, consequently it is of greater value in the treatment of all the digestive disorders than any other agent.

Peptenzyme is prepared in three forms, Tablets, Powder and Elixir.

# IMPERIAL GRANUM

THIS STANDARD PREPARED

# FOOD

IS EARNESTLY RECOMMENDED as a most reliable FOOD for INFANTS, CHILDREN and Nursing-Mothers; — for INVALIDS and Convalescents; — for Delicate, Infirm and AGED persons. It is not a stimulant nor a chemical preparation; but a PURE, unsweetened FOOD carefully prepared from the finest growths of wheat, ON WHICH PHYSICIANS CAN DEPEND in FEVERS and in ALL GASTRIC and ENTERIC DISEASES. It is easily digested, nourishing and strengthening, assists nature, never interferes with the action of the medicines prescribed, and IS OFTEN THE ONLY FOOD THE STOMACH CAN RETAIN.

# Your Interests Ours

Naturally the desire of every physician is that treatment shall not be balked by drugs and chemicals doubtful in strength or inexact in composition. Your interests are ours. Our relation to patients is remote, but not vague. We are quite as solicitous

that our preparations shall avert disease, alleviate suffering, or restore health as a physician is that the same ends shall be reached through his advice and care. Further, you study idiosyncrasy; you resolve obscurity; you thwart complications. You are not content with partial understanding or success. Nor are we with mediocrity or the mere semblance of therapeutic activity.

Merck's CHEMICALS are recognized everywhere as standards of Purity, Reliability and General Excellence. This recognition, and the consequent preference, is the natural fruit of uniform superior quality. We slight quality in nothing. Is it necessary to add that professional skill is aided and reputation sustained by absolute purity in drugs and chemicals?

PUBLISHED UNDER THE AUSPICES OF THE

NEW YORK:
PRESS OF LE HURAY & CO., 14 READE STREET.

1897.

Entered according to Act of Congress in the year 1897, by Daniel Lewis, in the Office of the Librarian of Congress at Washington, D. C.

# PREFACE.

The same general plan has been followed in the preparation of the Directory as in previous years, except the arrangement of the names in the State lists for New York, New Jersey and Connecticut, which have been arranged by towns instead of counties. The separate lists of the Medical Societies of New York and Kings Counties are so desirable for many reasons that they have been continued, although a few members have suggested a single list.

The appointments to out-patient departments of hospitals and dispensaries are not published, nor membership in societies outside of the two cities, as such data are not of general interest.

The Editor would urge all who consult the book, to promptly forward any needed corrections, realizing that in the collection of nearly 15,000 names, some errors are practically unavoidable.

# EXTRACTS FROM THE BY-LAWS OF THE COUNTY MEDICAL SOCIETY.

"The annual meeting of the Society shall be held on the fourth Monday in October.

"Stated meetings shall be held on the fourth Monday of every month, except in the months of June, July, August and October.

"Nominations for the officers, censors and delegates, to be elected at the annual meeting, shall be made at the stated meeting in September.

"Members whose dues are unpaid shall not be candidates for any official position in the Society, nor shall they be entitled to vote.

"Every candidate, before signing the By-Laws, shall be required to pay an initiation fee of two dollars, together with the current dues, within three months from the date of his election.

"The Comitia Minora shall recommend no applicant for admission to membership unless he be a graduate from a medical college in good standing or a licentiate of a regular unsectarian State or County Medical Society of this or any other State ; or, if his diploma or license be of sectarian character, unless the applicant declares in writing his or her abnegation of sectarian principles and practice."

*Resolution adopted October 28th, 1889.*

"*Resolved*, That, hereafter, members two years or more in arrears of dues shall have their names omitted from the published list of the Society ; and that, while thus in arrears, such members shall receive neither the notices of the Society's meetings nor its publications."

## Doctor :

We respectfully invite your attention to the fact that the Battle Creek Sanitarium is a good place for those cases of chronic indigestion, neurasthenia, insomnia, gastric and intestinal catarrh, constipation, and pelvic disorders which do not yield to the usual measures which can be employed at home.

The advantages afforded by a first-class physiological laboratory for the investigation of stomach disorders, blood examinations, etc., an admirably equipped diet kitchen, a scientifically conducted gymnasium, elaborate and elegant facilities for scientific hydrotherapy, steam heated, thoroughly ventilated buildings, three hydraulic elevators, a corps of twenty thoroughly trained physicians, 250 nurses, a salubrious location—offer an exceptionally favorable opportunity for the successful treatment of chronic invalids of all classes.

Sanitariums under the same management are located at St. Helena, Cal.; Boulder, Col.; Guadalajara, Old Mexico; and Chicago, Ill.

# NEW NUT PRODUCTS.

Nuts furnish an essential constituent of a vegetarian diet. In their natural state, they are difficult of digestion, and cannot be used by many persons; but the Sanitas Food Co. has discovered a method for rendering Nuts easily digestible by even the most delicate stomachs.

## NUTTOSE.

Is a pure product of Nuts, of the consistency of cheese, and has somewhat the appearance and flavor of cold roast mutton. It may be used in a variety of ways, and is a perfectly healthful substitute for cold sliced meat.

## BROMOSE.

Makes fat and blood. This product is made by malting Nuts, and is especially useful as a food for persons who cannot digest starch.

Send 25 cents in stamps for samples. Circulars supplied on application.

For the Last Twenty Years **CARAMEL-CEREAL**

**Has been used by the thousands of invalids who annually visit the Great SANITARIUM at Battle Creek, Mich.**

**UNCONCIOUS POISINING.**

An old physician of Chicago remarked the other day: "Thousands of people are poisoning themselves daily, with tea and coffee, without knowing it. A great number of nervous maladies and indigestion in various forms, are the result of the deleterious effects of the poison of tea and coffee upon the system. I myself made the discovery a good many years ago, that the headaches from which I had suffered for years were due to the use of tea and coffee. I found, whenever I took a cup of strong coffee, I had a headache as the result, and I had headaches now and then in spite of what I considered my great moderation in the use of tea and coffee. I concluded to dispense with them altogether, and when I did so, my headaches disappeared and did not return. I have cured scores of chronic headaches by forbidding the use of tea and coffee.

**CARAMEL-CEREAL** is a perfect substitute for tea and coffee. It is aromatic, delicious to the taste, and so nearly resembles coffee as to be easily mistaken for veritable Mocha, although, of course, not by a connoisseur.

# Infant Feeding.

EXCEPT that derived from the *healthy* mother's breast, the best food for an infant is the milk of *healthy* cows, if these animals receive proper food and care.

EVERY common-sense detail that it is possible to observe is practiced in Dr. Brush's milk dairy. Nothing but the whole grist of the best grain—no refuse of any description—is used as food. All the care and attention to the cows is given with an intelligent desire to produce good milk.

IT is delivered in New York City at 15 cents per quart; orders addressed to me will receive prompt attention.

E. F. BRUSH, M. D.,
Mount Vernon, N. Y.

"I am constant as the northern star,
Of whose trans-fix'd and resting quality
There is no fellow in the firmament.
—*Julius Cæsar.*

THERE are few useful products that have been more numerously and less successfully imitated than

## "BRUSH'S KUMYSS."

THE same word, often the same lettering as directions on the label, the same colored ink, and sometimes a device that imitates closely the trade mark, may cover a base imitation.

Only the word "BRUSH" will make your order definite.

# TONGALINE

## (MELLIER)

**Rheumatism.** In rheumatism and rheumatic conditions Tongaline thoroughly and promptly eliminates the poisonous products of the system. Tongaline possesses a special affinity for these viscid secretions which it neutralizes and eliminates through the emunctories.

**Neuralgia.** In all forms of neuralgia the anodyne properties of Tongaline not only speedily relieve the pain, but the continued use of the remedy exerts a certain and directly curative effect.

**La Grippe.** Tongaline will promptly relieve the racking aches and pains which accompany la grippe. Full doses every two hours will eradicate the disease, thus preventing the after effects which are so disastrous.

**Nervous Headache.** For the paroxysms of nervous headache, Tongaline in full doses has proven most efficacious, relieving nausea, subduing nervousness and superinducing sleep.

**Sciatica.** Full doses of Tongaline at an hour's interval, will invariably correct sciatica. An abatement of the pain will generally follow the second dose.

**Gout.** In Gout the effect of Tongaline is almost immediate, frequently relieving the pain after the first dose. Continue Tongaline every two hours for a day or two, then thrice daily until the disease has dissappeared.

## Successfully used for 15 Years.

# Vapo-Cresolene

Cresolene when vaporized in the sick room will give immediate relief and we positively state that no fear may be felt for a child's life in Whooping Cough or Croup if Cresolene is vaporized from the start.

Cresolene is a product of coal tar, the odor of which is not unpleasant, and may be inhaled for any length of time without harm to the youngest child. Cresolene is used with success both as a remedy and preventative in

**Diphtheria, Scarlet Fever and Measles.**

The vaporizer is six inches high and vaporization is effected by means of a kerosene lamp.

**Vaporizer with Cresolene, $1.50;**

**Cresolene, 2-oz. bottle 25 cents: 4-oz. 50 cents.**

For sale by druggists generally. Send for pamphlet with doctors' testimonials.

## EXAMINATIONS FOR LICENSE TO PRACTICE MEDICINE.

LAWS OF NEW YORK, 1893, CH. 661; § 145 ADMISSION TO EXAMINATION, AS AMEMDED BY LAWS OF 1896, CH. 111, IS AS FOLLOWS:

The regents shall admit to examination any candidate who pays a fee of $25 and submits satisfactory evidence, verified by oath, if required, that he

1. Is more than 21 years of age;
2. Is of good moral character;
3. Has the general education required preliminary to receiving the degree of bachelor or doctor of medicine in this State;
4. Has studied medicine not less than four full school years of at least nine months each, including four satisfactory courses of at least six months each, in four different calender years, in a medical school registered as maintaining at the time a satisfactory standard. New York medical schools and New York medical students shall not be discriminated against by the registration of any medical school out of the State, whose minimum graduation standard is less than that fixed by statute for New York medical schools. The regents may, in their discretion, accept as the equivalent for any part of the third and fourth requirement, evidence of five or more years' reputable practice, provided that such substitution be specified in the license;
5. Has either received the degree of bachelor or doctor of medicine from some registered medical school, or a diploma or license conferring full right to practice medicine in some foreign country. The degree of bachelor or doctor of medicine shall not be conferred in this State before the candidate has filed with the institution conferring it the certificate of the regents that before beginning the first annual medical course counted toward the degree unless matriculated conditionally as hereinafter specified (three years before the date of the degree), he had either graduated from a registered college or satisfactorily completed a full course in a registered academy or high school; or had a preliminary education considered and accepted by the regents as fully equivalent; or held a regents medical student certificate, granted before this act took effect; or had passed regents examinations as hereinafter provided. A medical school may matriculate conditionally a student deficient in not more than one year's academic work or 12 counts of the preliminary education requirement, provided the name and deficiency of each student so matriculated be filed at the regent's office within three months after matricula-

tion, and that the deficiency be made up before the student begins the second annual medical course counted toward the degree. Students who had matriculated in a New York medical school before June 5, 1890, and students who had matriculated in a New York medical school before May 13, 1895, as having entered before June 5, 1890, on the prescribed three years' study of medicine, shall be exempt from this preliminary education requirement.

A medical student certificate may be earned without notice to the regents of the conditional matriculation either before the student begins the second annual medical course counted toward the degree or two years before the date of the degree for matriculants in any registered medical school, in the four cases following:

1. For matriculants prior to May 9, 1893, for any 20 counts, allowing 10 for the preliminaries, not including reading and writing;

2. For matriculants prior to May 13, 1895, for arithmetic, elementary English, geography, spelling, United States history, English composition and physics, or any 50 counts, allowing 14 for the preliminaries;

3. For matriculants prior to January 1, 1896, for any 12 academic counts;

4. For matriculants prior to January 1, 1897, for any 24 academic counts;

But all matriculants, after January 1, 1897, must secure 48 academic counts, or their full equivalent, before beginning the first annual medical course counted toward the degree, unless admitted conditionally, as hereinbefore specified, when the deficiency must be made up before the student begins the second annual medical course counted toward the degree.

---

*This act took effect March 21, 1896, except that the increase in the required course of medical study from three to four years does not take effect till January 1, 1898, and does not apply to students who matriculate before that date and receive the degree of M. D. before January 1, 1902.*

## Notes on the Preliminary Education Requirement.

The regents will accept as fully equivalent to the required academic course any one of the following:

(*a*) A certificate of having successfully completed at least one full year's course of study in the collegiate department of any college or university, registered by the regents as maintaining a satisfactory standard.

(*b*) A certificate of having passed in a registed institution examinations equivalent to the full collegiate course of the freshman year or to a completed academic course.

(*c*) A regent's diploma.

(*d*) A certificate of graduation from any registered gymnasium in Germany, Austria or Russia.

(*e*) A certificate of the successful completion of a course of five years in a registered Italian *ginnasio* and three years in a *liceo*.

(*f*) The bachelor's degree in arts or science, or substantial equivalent from any registered institution in France or Spain.

(*g*) Any credential from a registered institution or from the government in any foreign state or country which represents the completion of a course of study equivalent to graduation from a registered New York high school or academy or from a registered Prussian gymnasium.

### Extracts from Rules.

*Order of Studies.*—There is no restriction in the order in which studies may be taken. Advanced students who have come from other states, or who, for other reasons, have not passed in elementary subjects, may take them at any time—*e. g.*, arithmetic after algebra or geometry. English composition after rhetoric, etc.

*Time Limit.*—There is no limit of time, but all credentials issued by the University are good till cancelled for cause. Studies necessary to obtain any credential may be passed at different examinations.

### Notes on the Professional Requirements.

1. Seventy-five per cent. of correct answers is required in all subjects.

2. All subjects must be passed at the same examination.

Note.—When a candidate for license has been rejected in but *one* topic and his average is at least 80, at subsequent examinations he shall be examined only in the topic in which he originally failed to receive the required (75) percentage.

3. All examinations must be conducted in the English language.

4. Medical preparatory courses, as such courses are now taught in various scientific schools and colleges, cannot be accepted for one year of the medical study required by the law.

POWERS AND DUTIES OF COUNTY CLERKS IN REGISTERING LICENSES TO PRACTICE MEDICINE IN NEW YORK STATE.

The laws relating to registration of physicians by county clerks were repealed May 9, 1893, when the new law took effect. The law forbids the registration of any authority to practice medicine except a license or diploma issued or indorsed as a license under seal by the University of the state of New York, or (in case of removal to another county of a physician already licensed) a certificate clearly showing that the original registration was of an authority issued or indorsed under seal by the regents.

To provide against penalties for illegal registration, all other cases should be referred to the University of the State of New York, the only authority by which licences can be issued after September 1, 1891.

Address all communications: Examination Department, University of the State of New York, Albany.

AN EVENT OF MUCH IMPORTANCE.

# AMMONOL

is an Ammoniated-Phenylacetamide product of Coal-tar and differs from the numerous similar products in that it contains Ammonia in active form. As a result of this, **AMMONOL** possesses marked stimulating and expectorant properties The well-known cardiac depression induced by other Antipyretics, has frequently prohibited their use in otherwise suitable cases. The introduction of a similar drug, possessed of stimulating properties, **is an event of much importance. AMMONOL** possesses marked anti-neuralgic properties, and it is claimed to be especially useful in cases of dysmenorrhœa.—*The Medical Magazine, London.*

**AMMONOL** behaves as a stimulant as well as an antipyretic and analgesic, thus differing from other coal-tar products. It has been used in the relief of rheumatism and neuralgic pains, and in the treatment of the sequelæ of alcoholic excess. **AMMONOL** is also prepared in the form of salicylate, bromide and lithiate. The presence of Ammonia in a more or less free state gives it additional properties as an expectorant diuretic and corrective of hyperacidity.—*London Lancet.*

**Ammonol may be obtained from all Leading Druggists.**

*Rules Governing the Award of the Prize.*

1st. The prize shall consist of a gold medal 150 grammes in weight (or $100 in cash), which shall bear upon one side the seal of the Society, and on the other the following: Awarded as the annual prize, by the Medical Society of the County of New York, to ———— ——, for an essay on————.

2d. The essays shall be handed to the Committee on Prize Essays on or before the 1st of Ootober in each year.

3d. Each essay shall be accompanied by a sealed envelope containing the name and address of the author and bearing on the outside the motto which is inscribed upon the essay.

4th. The writer of each essay is expected to present his dissertation in a plain and distinct handwriting, and with the pages bound in book form.

5th. Any clue by which the authorship of an essay is made known to the committee will debar such an essay from competition.

6th. Other things being equal, preference will be given to essays which exhibit original work on the part of the author.

7th. The Society does not consider itself as approving the doctrines contained in any of the essays to which the prize may be adjudged, and, in case of publication of a successful essay, the author shall be considered bound to print the above in connection therewith.

8th. The selection of the subject upon which to write will be left open to the competitors, but will be restricted to the field of what are called the departments of medical study.

9th. The Society will return to unsuccessful competitors their essays, if called for within six months after the award has been made.

10th. The committee is empowered not to award a prize in case none of the essays are worthy thereof.

11th. The prize is restricted to members of the Medical Society of the County of New York.

12th. The Society reserves to itself the right to require that the essay, for which a prize is awarded, shall be read before the Society previous to being placed at the disposal of the author (*vide* Committee on Prize Essays).

# THE NEW YORK SOCIETY

FOR THE

# RELIEF OF WIDOWS AND ORPHANS

OF MEDICAL MEN.

INSTITUTED 1842. INCORPORATED APRIL 18, 1843.

Annual members pay an initiation fee of $25, and $10 dues in semi-annual payments. Any person paying $100 at one time becomes a member for life, and $250. and upward, a benefactor. Members of the regular medical profession, residing in New York, Kings, Queens, Richmond and Westchester Counties, who are in good health, are eligible for election as members.

**Persons Entitled to Relief.** 1. The widow of a member whose income does not exceed eight hundred dollars per annum. If said widow shall marry again, her annuity shall cease. 2. Children of a member, males under sixteen and females under eighteen years of age and unmarried, and where the mother's income is not more than two hundred dollars per annum for each child respectively, in addition to the eight hundred dollars above mentioned. 3. Orphans of a member, males under sixteen, and females under eighteen years of age and unmarried, whose income does not exceed two hundred dollars per annum. Every child, on arriving at the age when the annuity ceases, shall receive the sum of fifty dollars as an outfit. In cases of prolonged ill health, or other extraordinary circumstances, the assistance granted to the surviving children of members may be extended beyond the limits of sixteen and eighteen years respectively. An aged mother, father or sister dependent on a member may receive assistance after a member's death. The marriage of the widow shall not invalidate the claims of the children to assistance from the Society. No one shall be entitled to claim assistance from the Society unless the person by virtue of whose membership the claim is made has been a member for the two years previous to his death.

Every widow of a member shall be entitled to four hundred dollars per annum, but for every ten dollars or multiple of ten dollars, of income, an amount fully equal to fifty per cent. of said income shall be deducted from the annuity. Every child entitled to relief shall receive one hundred dollars per annum, subject to the same reduction of fifty per cent. of income as above. When there are full orphans, then each case shall be specially investigated by the Standing Committee, and the amount fixed for every year, according to the circumstances of the case.

Total assets of the Society, October 6, 1896, $220,917.72.

The duration of human pregnancy is about 275 days. This is subject to some variation, and the longest period is still undetermined. As labor occurs in the larger proportion of cases between 270 and 290 days from the last menstruation, it is usual to reckon either from the first or last day of this period, taking as the mean 280 days, or a little over nine calendar months. For this approximate calculation the first day of the menstrual period may be used as being more readily ascertained. The table presents at a glance the beginning and end of 280 days for every day of the year Find the date of menstruation in the upper line of the horizontal row, and the figure below, with the corresponding month, will indicate 280 days. In leap year, if the period of pregnancy includes February, the time for labor will be one day earlier than that given in the table.

# CONTAGIOUS DISEASES.

## REGULATIONS OF THE BOARD OF HEALTH.

SECTION 98.—1. Whenever it becomes known to the principal or teacher in charge of a school that a contagious disease prevails in a house, other than a tenement, in which a child or children attending the school lives or live, such child or children shall be immediately excluded from the school, and shall not be readmitted except as elsewhere in this section provided.

2. Whenever the principal or teacher in charge ascertains that a contagious disease other than small-pox or typhus fever exists in a tenement house, but on one floor only, a child or children living on another floor of the same house need not for this reason be excluded, but children thus situated must be questioned daily about their health and that of their respective families, and must be sent home at the first symptom of illness or the first intelligence of contagion in their families.

3. But if a contagious disease of any description exists on more than one floor of a tenement house, or if the disease existing on only one floor be small-pox or typhus fever, all children living in the house must be promptly excluded from the school.

4. Children excluded in pursuance of the above rules shall not be again permitted to attend school—

In case of scarlet fever, until three weeks after the *beginning* of the last case, on the floor or in the house, according to whether the exclusion has applied to the floor or an entire house under the above rules.

In case of measles until two weeks after the *beginning* of the last case, on the floor or in the house, according to the extent of exclusion.

In case of diphtheria, until one week after the *termination* of the last case, on the floor or in the house according to the exclusion.

In case of scarlet fever, measles or diphtheria, until a certificate of the Board of Health is produced, stating that the apartments, bedding, and clothing affected by contagion have been properly disinfected.

If the disease be small-pox or typhus fever, children who have been in such a case excluded must not resume their attendance

without producing a certificate from the Board of Health stating it is safe for them to do so.

5. New scholars applying for admission, living in houses or on floors where a contagious disease prevails, must be admitted or excluded in compliance with the above rules.

6. Principals and teachers in charge are required to communicate to the clerk of the Board of Education any information received by them relevant to this subject not known to be in his possession.

7. Hereafter all children attending the schools under the control of this Board, and residing in orphan asylums, infirmaries, homes, nurseries, or other institutions, shall regularly furnish to their respective principals weekly certificates signed by a duly licensed and competent physician of good standing, to the effect that during the week preceding the date of such certificate there were no contagious or infectious diseases of any kind in such asylum, infirmary, home, nursery, or institution, and no principal shall allow the attendance at school of any such children unless such certificate herein required is furnished as aforesaid ; and all such certificates shall be preserved by said principals for one year.

8. If the certificate should show that there was any such disease in such orphan asylum, infirmary, home, nursery, or institution, or if any principal should, from any other source, ascertain the existence of any such disease in any such orphan asylum, infirmary, home, nursery, or institution, such principal shall forthwith dismiss from attendance all pupils residing in such orphan asylum, infirmary, home, nursery, or institution, and such pupils shall not be allowed to attend until authorized by the committee on By-Laws, Elections, and Qualifications of the Board of Education.

# STAMMERING.

## THE BRYANT SCHOOL FOR STAMMERERS.

***For the Correction of Stammering and other Affections of Speech where Drill in Articulation and the Technique of Speech are Indicated.***

As much of the speech apparatus is under control of the will, considerable may be done for those who suffer from speech defects, by a careful training of the respiratory, vocal and articulating organs. This training is given under the direction of a physician with sixteen years' experience. The profession may rely upon having the best treatment known for those who apply to them. Such remedies for nervous and physical conditions as directed by the patient's physician may also be used. The circular, "How We Treat Stammering To-day," giving outline, information and references from eminent men and pupils, sent to any address mentioned.

**F. A. BRYANT, M. D., 9 West 14th Street, New York.**

# Exercise, ACTIVE AND PASSIVE,

## As a Therapeutic Agent.

DR. WATSON L. SAVAGE is prepared to co-operate with physicians having patients who need personally directed and scientifically administered exercise.

In the following groups this has proven most beneficial; MUSCULAR DEFORMITIES, ERRORS OF NUTRITION, CHRONIC CONSTIPATION, NERVOUS CONDITIONS, GENERAL DEBILITY; or ANY CHRONIC CONDITION not yielding to other forms of treatment.

Physicians will please remember that the department for special cases needing individual attention is entirely separate from the general gymnasium. The patients are NOT exercised in classes, as every case is different and each has a prescribed course.

We issue no circular of the medical work.
Circulars of the Gymnasium on application.

# Three New Iodine Compounds.

**Superior in Efficacy to Iodoform.**

Possess strong antiseptic properties. Do not liberate Iodine, and are non-poisonous, non-irritant, tasteless, **And Odorless.**

Are receiving the unqualified indorsement of leading medical authorities of America and Europe, and are being regularly used by them in preference to Iodoform, and the many other substitutes for it.

## NOSOPHEN
(Tetraiodophenolphtalein)

Distinguished for its remarkable desiccative action, and does not cake when applied to wounds. Possesses exceptional healing properties. Indicated as a dusting powder in wounds of all kinds. Is unequaled in abraded surfaces, like burns, etc.; in abscesses and ulcers of all kinds; in affections of the skin; venereal affections, etc. Being a very light and impalpable powder, it can be very finely diffused, whereby the article is rendered especially valuable for eye, ear, nose and throat practice.

## ANTINOSINE
(The Sodium Salt of Nosophen)

Is distinct from most antiseptic products in being readily soluble in water, by virtue of which it is especially adapted in solution as an antiseptic wash in all cases where such is indicated, and as a gargle; gives excellent results in ear, nose and throat practice; for irrigations of the bladder in cystitis, etc.; as an injection in gonorrhœa, etc. It is also employed very successfully as a dusting powder where very strong antiseptic action is desired.

## EUDOXINE
(The Bismuth Salt of Nosophen)

It is intended for internal use as a gastric and intestinal antiseptic, and as such has given better results than any other known remedy.

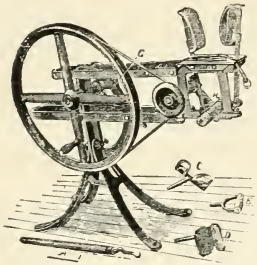
GEO. H. TAYLOR, M. D.
Founder, Inventor of Mechanical Massage

G. H. PATCHEN, M. D.
Medical Director.



# The Improved Movement Cure Institute,

## No. 11 East 59th Street, NEW YORK.

DEAR DOCTOR :— Do not forget that **MECHANICAL MASSAGE** (the invention of Dr. George H. Taylor), will greatly assist you to cure obstinate cases of Rheumatism, Paralysis, Sciatica, Neuralgia, Nervous Exhaustion, Dyspepsia, Constipation, Hemorrhoids, Obesity, Deformities, Uterine Displacements and Chronic Congestions and Inflammations of the Pelvic Organs. It is a specific remedy for these conditions.

This Institute makes the **experienced** application of mechanical massage a specialty, *and at no other place or institution are its various processes given with the knowledge, skill and precision, as here, in exact accordance with the method so long practiced by its inventor.*

Personal inspection of methods solicited. Explanatory literature furnished upon application.

# Vitalized Phosphites,

*Prepared for the Use of the Profession According to Prof. Percy's Formula,*

## By F. CROSBY CO.

These alkaloid Hypophosphites are prepared from the Phosphoid principles of the ox brain and from the germ or embyro of wheat.

It is a brain and nerve food, and will be found useful in the deficient mental and bodily growth of infants and children; in the nervous prostration and debility of young men; in the fatigue of the brain of overworked clergymen, lawyers, students, and business men; in the lassitude and sleeplessness of debilitated women; in the overtaxed secretion of nursing mothers, and in consumption.

It should be used in fractures and after surgical operations. The Vitalized Phosphites is a dry extract, and, unlike the syrups, will keep for years unchanged.

A "STRIKING" TEST FOR PILLS.

This test shows that many Mass pills, though soft and fairly digestible when fresh, become with age hard enough to be driven into a board.

Only such manufacturers as make pills that so deteriorate need show any resentment at this test. Why powdered drugs at all if they are afterwards to be cemented by an unnecessary and objectionable excipient into a solid which soon becomes harder than the crude material?

Upjohn's Friable Pills retain their Friable qualities indefinitely and exhibit the medicinal ingredients to the digestive tract in a form offering the least resistance to assimilation.

Don't leave it to your druggist to put out what he chooses on your prescriptions. **Specify some make.** If Upjohn's are best, don't fail to

## A LIQUID MALT EXTRACT.

PALATABLE AS WELL AS

**NOURISHING**

ABSOLUTELY PURE

THE BRAUNSCHWEIGER MUMME is made from roasted malt, by a process of natural fermentation, which produces a pleasant, highly nourishing malt extract containing the smallest percentage of alcohol and the largest amount of extract of any liquid malt on the market. An effective Tonic and at the same time a mild stimulant, it is tolerated by the weakest stomach and is a substitute for solid food in cases of acute disease, and a valuable aid to digestion in all chronic conditions indicating mal-assimilation of food. Nursing mothers, convalescents, and victims of insomnia or nervous disorders resulting from impared digestion or overwork, will find that Braunschweiger Mumme taken with each meal will stimulate digestion, while taken before retiring will induce quiet, restful sleep. It preserves and strengthens the well and restores the sick.

## We sincerely believe that

The prospects for an infant are better if it has food which nature intended for it to have, its mothers' milk.

**There is no food for the baby like it.**

But for some reason artificial feeding may be necessary. It is then we ask you to consider

# Just's Food.

We do not claim that our food is "precisely like," but "the nearest to" mother's milk. We believe it is the most perfect substitute for mother's milk that science has produced.

## We Teach

**Mother's Milk First,**
**Just's Food Second.**

Feeling confident that only a trial is necessary to convince you of the merits of our food for infants, young children, and invalids, and as a diet in typhoid fever, we will gladly send you a supply, if you will give us your name and address.
